January 2017

Description:

ARB Digital Tire Inflator Braided
Hose w/ Chuck

Application:

General Air Accessories &
Recovery Gear

Part No. :

ARB601

Price:

\$55.00

Availability Date:

February 2017

Product Specification

Keeping accurate tire pressure is a necessity for good fuel economy, prolonged tire life and maximum traction off road. Introducing the new ARB Digital Tire Inflator Gauge, which is ready to provide accurate readings and inflation for your next 4WD adventure.

An accurate air pressure gauge and tire inflation equipment in your vehicle is a necessity for any four wheel enthusiast. Running the correct tire pressures for different situations and or vehicle load changes is an extremely simple way to improve the ride and vehicle's performance. The new ARB Digital Tire Inflator Gauge makes checking and adjusting your vehicle's tire pressures a fast and simple operation with its large, blue backlight display, thumb operated inflator button and simple deflator bleed button.

The 23.5 inch dual swivel PVC coated braided hose and clip-on air chuck eliminates the need to bend over while airing up at the end of a long trail day and the backlight ensures you know the exact pressures no matter if it is day or night when you are airing up.

Features

- Large LCD digital readouts with blue backlight
- Battery indicator
- Multiple measurements (Scale: 0-200 Psi / 0-14 Bar / 0-1400 Kpa)
